MINSTREL NWACHUKWU

Node JS Developer | MongoDB Expert | Javascript Developer | Analytical Thinker

phone: +234 7032093048 | email: minstreln@gmail.com | profile: linkedin.com/in/minstrel-nwachukwu | Location: Nigeria

SUMMARY

With 5 years of experience, I am an analytical and skilled Node JS developer proficient in Node JS, Mongodb, Express JS, Javascript ,API integration, Git and database management. I am passionate about developing optimized high-end backend code.

EXPERIENCE

Junior Node.js Developer

Tankar Solutions.   04/2022 – 01/2024 | India

- Built a robust and highly scalable online financial advisor web platform that connects clients in need of financial advise to advisors in India.
- Optimised application performance resulting in a 20% reduction in server load and 30% faster response time.
- Integrated multiple third-party APIs, enhancing the application's functionality and user experience, leading to a 15% increase in customer satisfaction.
- Developed video and audio call features that streamlined communication between clients and advisors.

BACKEND WEB DEVELOPER

Tankar Computers.   02/2020 – 02/2022 | India

- Was part of a team to develop a high-end betting platform that made online betting faster and easy for the users.
- Integrated third-party APIs to enhance the application functionality and this increased user experience by more than 20%.
- Conducted unit and functional testing, improving application reliabilty by 30% through early bug detection.

FULLSTACK WEB DEVELOPER

Freelance.   02/2024 – present | India

- Developed web applications and softwares for restaurants, real estate companies, e-commerce online stores and courier companies.
- Developed online food ordering system for a restaurant, and that reduced their workload and streamlined their order recieving process by about 35%.

EDUCATION

Bachelor of Technology in Computer Science

Abubakar Tafawa Balewa University   09/2019 – present

PROJECTS

Localised Service Provider Platform

Developed a web application using Node.js, Express.js and MongoDB that connects clients to Service providers within their geographical location. See the project at *https://github.com/Minstreln/nexmejor-backend*

Restaurant QR Review system

Developed a web application using Node.js, Express.js and MongoDB for a restaurant. Built a complex review system so customers can leave reviews for waiters by scanning their QR code. See the project at *https://github.com/Minstreln/sajerestaurant | https:///sajeinvestmentltd.com*

ACHIEVEMENTS

Optimized system performance

Successfully optimized a critical system for Tankar Solutions, reducing server load by 25% and improving response times by about 30%

Increased server uptime

Successfully enhanced the server uptime of all the apps i have developed and this has directly and positively impacted customers satisfaction.

SKILLS

NodeJS   ExpressJS

MongoDB   Javascript

Database management

Aws   Git/Version control

Problem solving   Team worker

Communication

COURSES

Node.js, Express, MongoDB & More: The Complete Bootcamp (UDEMY):

Gained in depth knowledge in advanced Node js concepts, including authentication, security and alot more.
